UX+UI 101

Elements and priciples of User Experience & User Interface

Qualifications

Responsibilities:

- Create user-centered designs by considering market analysis, customer feedback, site metrics, usability findings, and following the user-centered design process
- Use business requirements and market research to assist in developing scenarios, use cases, and high-level requirements
- Design the UI architecture, interface, and interaction flow of applications and experiences
- Develop conceptual diagrams, wireframes, visual mockups, click-throughs, and prototypes
- Develop and maintain detailed user-interface specifications and design patterns
- Present design work to the user experience team, product team, and Amazon.com executives for review and feedback
- 3 to 5 years of experience as a user experience designer, interaction designer, information architect, or similar role

Responsibilities

- Take broad, conceptual ideas and turn them into something useful and valuable for our billion+ users
- Design flows and experiences that are incredibly simple and elegant
- Contribute to high-level strategic decisions with the rest of the product and executive teams
- Give and solicit feedback from other designers in order to continually raise our bar for quality
- Partner with PMs, engineers, researchers and content strategists to oversee the user experience of a product from conception until launch (and then some)

Requirements

- Experience developing consumer and/or commercial web application interfaces
- Proven track record and a passion for designing compelling user experiences
- Solid intuition and understanding of design principles and tools used in interaction design
- Experience in creating interface prototype methods and portfolio full of examples
- Understanding of front-end languages like HTML, CSS, and JavaScript (a plus)
- Online portfolio (not a PDF or Dropbox file)

Etsy

About the Job

As a Senior Product Designer at Etsy, you'll be expected to tackle our most difficult user experience problems. We'll look to you to be a leader on your team, elevating your fellow designers' work with thoughtful critique, both online and in-person, and in groups and one-on-one. You will be expected to think holistically and encourage your teams and fellow designers to think beyond what they're building.
