# *About Us*

**Hi from the Future** is a boutique creative studio that specializes in digital content creation using AI, real-time CGI animation, interactive AI-driven websites, and immersive 360° experiences.

We work with global brands and artists, pushing the boundaries of technology and innovation to pioneer the future of creative content.

We are artists at heart, bridging technology and creativity with purpose.

Our work is driven by our core values:

**Excellence, Innovation, Service, and Integrity.**

# *Internship Program Details*

- **Duration:** 10 – 12 weeks (flexible start/end between May & September 2025)
- **Location:** Remote with daily Zoom + Discord collaboration
- **Compensation:** Competitive Rate
- **Mentorship:** 1-to-1 guidance from senior artists & engineers, plus cross-disciplinary learning sessions

# *Internship Experience*

## **INNOVATE, CREATE, COLLABORATE**

As a Hi from the Future intern, you will be an integral and valued part of our dynamic team, contributing directly to projects that push the boundaries of technology and creativity.

We foster an environment where continuous learning, bold innovation, and collaboration are not just encouraged but are paramount to our success. This experience is designed to immerse you in the practical application of your skills while expanding your understanding of the industry.

Your professional firmware update in progress...

# *Intern Responsibilities*

- Collaborate with the team to prototype and build immersive interactive web and mobile experiences.
- Use generative-AI pipelines (images, video, code) to accelerate creative content workflows.
- Contribute ideas during creative sprints and iterate quickly based on feedback.
- Test, debug, and document features so the work remains future-proof for teammates and clients alike.

*We're all about giving you rad young kahunas the chance to dive in, catch some industry waves, and learn the ropes from the big apes! 🏊*

# *What We're Looking For*

- Current enrollment in a Bachelor's or Master's program focused on computer graphics, computer-science, game development, or similar.
- A strong curiosity for AI-driven creation tools and emerging tech.
- Proficiency with 3D software (Unreal Engine, Blender, C4D, Houdini, Maya)
- Solid critical thinking and problem-solving skills and a collaborative, communicative mindset.
- A portfolio and/or GitHub that demonstrates both technical skill and creative insight.

Earthlings, we seek smart, passionate intern lifeforms this summer solar cycle.  
Join our cosmic mission! 🚀

# *How To Apply*

Submit your resume, cover letter, and a portfolio showcasing your work in creative content & technologies to
